

■■■ D.A.K — Lean MVP Specification (v1.4 — FINAL)

Audience

Technical delivery teams (Customer Success, Lead Architect, Backend, Frontend, DevOps).

Confidentiality Notice

This document and all information contained herein are **confidential and proprietary** to ■■■ D.A.K. It is provided solely for evaluation, discussion, and estimation purposes. No part of this document may be shared, disclosed, reproduced, or distributed to any third party without prior written consent from ■■■ D.A.K.

Purpose

This document defines the **exact MVP scope** of D.A.K for cost estimation and delivery.

It is intentionally lean to control burn while enabling real community usage, live streaming, and monetization.

0. CORE PRINCIPLES (NON-NEGOTIABLE)

- Community-first, trust-driven platform
- No donation, fundraising, or charity framing
- Controlled access by design
- PSP-led payments & compliance
- Lean MVP: only what is required to go live and charge
- Vendor-neutral infrastructure assumptions
- **Responsive-first delivery**: single web application optimized for mobile and desktop use

1. TERMINOLOGY (STRICT ENFORCEMENT)

Approved platform terms:

- **Community** = Institution
- **Community Type** = Religious vertical (Chinese-wall enforced)
- **Active Community Access** = Time-bound state unlocking community capabilities
- **Active Access** = Short UX label for Active Community Access
- **Platform Fee** = Infrastructure usage fee applied to institute activity

🚫 **Banned terms (must not appear anywhere):** - Donation

- Donor
 - Support
 - Contributor
 - Fundraising
 - Entitlement
-

1A. SUPPORTED COMMUNITY TYPES (MVP)

The platform is initialized with support for the following Community Types:

- Islam
- Christianity
- Hinduism
- Judaism

Rules: - Community Types are strictly isolated (Chinese-wall enforced)
- Users cannot cross Community Types
- Feature set is identical across all Community Types
- Additional Community Types are out of scope for MVP

2. PUBLIC ENTRY (LIMITED & INDEXABLE)

IN SCOPE (MVP)

Single public landing page: - Indexable by search engines

- Static content only
- Sole purpose: waiting list intake

Allowed actions: - Enter email
- Recommend institution name (free text)

Not allowed: - Account creation
- Community browsing
- Streaming access
- Any interaction beyond waiting list

This is the **only public surface** of the platform.

3. WAITING LIST (LEAN)

IN SCOPE (MVP)

- One waiting list per **Community Type**
- Email + recommended institution name
- No account creation
- No automated emails or triggers

Purpose: - Capture demand
- Inform institution onboarding priorities

4. USER ONBOARDING (QR / INVITE ONLY)

IN SCOPE (MVP)

Rules: - Users can create accounts **only** via: - Community QR code
- Direct community invitation link - No open signup

Flow: 1. Scan QR / click invite
2. Account creation (Email / Google / Apple)
3. Community Type auto-assigned from QR
4. Confirmation message:

"You're joining communities within the [Religion] network on D.A.K"
5. Redirect to Community Page
6. User starts in **view-only state**

5. MULTI-COMMUNITY MEMBERSHIP

IN SCOPE (MVP)

- Users may join **multiple communities** within the same Community Type
 - Each community maintains **independent Active Community Access**
 - No cross-religion access permitted
-

6. GLOBAL ACCESS

OPTIONAL (PRICE SEPARATELY)

- UI placeholder only ("Coming soon")
 - Backend logic optional
 - Activation decision deferred until scale and cost review
-

7. ACTIVE COMMUNITY ACCESS (CORE BUSINESS LOGIC)

Definition

Active Community Access is a **time-bound state** that unlocks participation and engagement capabilities within a community.

Capabilities Unlocked

Users with Active Community Access can: - Message the institution (user ↔ admin)
- View community calendar
- View upcoming events
- Receive **in-app notifications** for events and updates

- Watch live streams (subject to limits)
- Play back gated recordings (1 included)

States

View-Only User - Can view limited public content

- Can watch live streams if capacity allows
- Cannot chat, view events, or play recordings

Active Community Access User - Access valid for a defined period

- Automatically expires if not renewed

7A. ACTIVE COMMUNITY ACCESS — DURATION MECHANISM (INTERNAL)

Base Rule

- **\$5 grants 30 days** of Active Community Access

Rolling Extension

- Access **extends forward**, never resets
- New payments **add days** to the current expiry

Access Conversion Table (INTERNAL ONLY)

Payment Amount	Access Granted	Notes
< \$2	7 days	Grace tier
\$2 – \$4.99	14 days	Partial access
\$5 – \$9.99	30 days	1 month
\$10 – \$14.99	60 days	2 months
\$15 – \$19.99	90 days	Max active access
\$20+	90 days + credit	Excess stored

90-Day Cap & Credit Logic (INTERNAL)

- Max Active Community Access shown to user: **90 days**
 - Any value beyond 90 days stored as **credit**
 - Credit auto-applies when access < 90 days
 - Users never see credit balances or calculations
-

8. COMMUNITY ACCESS ACTIVATION & PAYMENTS

IN SCOPE (MVP)

- Amount chosen **inside D.A.K** (single open input field)
 - Redirect to PSP checkout for execution
 - One PSP (Stripe)
 - PSP is source of truth for payments, KYC, compliance
 - No card or bank data stored on D.A.K
-

8A. INSTITUTE SLIDING SCALE (PLATFORM FEE — LOCKED)

Purpose

Fund platform infrastructure proportionally to institute activity.

Community Activity

= total Active Community Access collected per institute per calendar month

Monthly Community Activity	Platform Fee
\$0 – \$300	25%
\$300 – \$600	20%
\$600 – \$1,000	12%
\$1,000+	7%

Rules: - Calculated monthly, per institute
- Deducted automatically from PSP settlement
- Not user-facing
- Defined in institute agreement

9. STREAMING

IN SCOPE (MVP)

- Up to **2 live streams per week**
- Max **60 minutes per stream**
- **40% concurrent viewer cap** per community
- Graceful message if cap reached

Recording - One recording included

- Teaser visible
 - Playback gated behind Active Community Access
-

10. GENERIC STREAMING REQUIREMENTS

Institution requirements: - Smartphone or webcam

- Basic microphone
- Stable internet (min 5 Mbps upload)

Platform responsibilities: - Stream ingestion

- Playback
 - Access control
-

11. COMMUNITY ONBOARDING (ADMIN)

Required Fields

- Community name
- Country
- Community Type
- Admin name
- Admin email
- Role in institution

Optional Fields

- Official website URL
- Official institution identifier
- Short description

Single admin per community (MVP).

12. COMMUNITY PAGE MANAGEMENT (ADMIN CMS)

Admins can manage: - Logo

- Cover image
- About text
- Head of institution
- Message of the Day
- Events

Fixed templates. No page builders.

13. EVENTS & CALENDAR

- Admins create events
- Users with Active Community Access can view
- Read-only for users

Add to Calendar - ICS export (Google / Apple / Outlook)

14. USER DASHBOARD

User Home shows: - Joined communities

- Active Access status per community
 - Upcoming events
 - Aggregated calendar
 - Next live streams
 - In-app notifications
-

15. MESSAGING

- Private threaded inbox
 - User ↔ institution admin only
 - Admin can block users
-

16. ANALYTICS & SUBSCRIBER METRICS (INTERNAL)

Subscriber Definition

A subscriber is any user with **Active Community Access** at the time of measurement.

Metrics: - Active subscribers

- Subscriber growth & churn
- Subscriber-months (active days ÷ 30)
- ARPU

Platform Admin: - Total communities

- Total users
 - GMV (admin-only)
-

17. INFRASTRUCTURE HYGIENE

- Rate limiting
 - Bot protection
-

18. COMPLIANCE & PRIVACY

- PSP-led compliance
 - Privacy-aware data handling
 - Minimal data collection
 - No data residency guarantees at MVP stage
-

19. EXPLICITLY OUT OF SCOPE

- Native mobile apps
 - Community discovery
 - Multi-admin roles
 - Email notifications
 - Advanced analytics
 - Full calendar sync
 - Internationalization / RTL
-

20. MVP SUCCESS CRITERIA

- Institutes onboard
 - Communities stream
 - Users activate access
 - Revenue flows compliantly
 - Costs remain controlled
-
-
